Nissan Chemical Industries, Ltd.

Notification Regarding the Establishment of New Subsidiary in Federative Republic of Brazil

Nissan Chemical Industries, Ltd. (hereinafter called “Nissan Chemical”) announces today that its subsidiary, Nissan Chemical Do Brasil (hereinafter called “NCB”) was established in São Paulo, Brazil.

Nissan Chemical aims to further expand its crop protection business in Brazil along with other South American Countries with the opening of a new subsidiary NCB. The South American crop protection business is expected to continue growing and the establishment of NCB will enable Nissan Chemical to strengthen sales, marketing capability and new product development to match local market needs in the region.
