Nissan Chemical Industries, Ltd.

Notice of Nissan Chemical Group Welfare Fund Activity

Nissan Chemical Group will commemorate the 17th anniversary of its welfare fund activity this year. The activity has been undertaken since 1997 under the gift-matching system. Under this system, the company matches the contributions generously made by its employees. The purpose of the activity is, among other things, to provide support to welfare organizations and contribute to the protection and beautification of the environment.

The donation for FY2013 was more than 13,000,000 yen. It was presented to support facilities for persons with disabilities, special nursing homes for the aged, maternal and child living support facilities, support for disaster orphans, guide dogs for the blind associations, local social welfare councils and other organizations.

The Group remains committed to community-oriented activities that contribute to society.
