**Notice Regarding Contract Conclusion with StoreDot
on Organic Color-Conversion Enhancement Material**

Nissan Chemical Corporation (Head Office: Chuo-ku, Tokyo; President: Kojiro Kinoshita) announces that the contract conclusion with StoreDot (Head Office: Herzliya Israel, CEO and Cofounder: Dr. Doron Myersdorf) for the development and licensing of organic color-conversion enhancement material.

Color-conversion technology is becoming more important to widen color-gamut of displays. StoreDot's organic color-conversion materials show many excellent properties such as color-conversion capability and stability, which would be further improved by combining with our technologies.

Nissan Chemical will accelerate the development and commercialization of new display materials.

■About StoreDot:

StoreDot Ltd. is a battery and display materials innovation company, developing ground-breaking technologies based on a unique methodology for the design and synthesis of both organic and inorganic compounds. Designed to replace known technologies with enhanced electro-chemical and optical properties, StoreDot's proprietary compounds, combined with nano-materials, are optimized for various applications including displays, mobile devices and electric vehicles
