To whom it may concern

Listed on a Water Security “A List” by CDP for the First Time

Nissan Chemical Corporation (Head Office: Chuo-ku, Tokyo; President: KINOSHITA Kojiro) announces that we were listed for the first time on Water Security “A List” as a company with excellent sustainable water resource management by CDP, which is a global prestigious organization in the environmental field.

CDP is a global non-profit organization that request information disclosure to companies and municipalities and drives them to reduce their greenhouse gas emissions, safeguard water resources and protect forests based on request of global institutional investors etc. with a strong interest in environmental issues. Over 8,400 companies with over 50% of global market capitalization and over 920 municipalities in various countries disclosed environmental information through CDP in 2019.

Our corporate philosophy is "We contribute to society in harmony with the environment, based on our excellent technologies, products and services." and as a part of our initiative to materiality, we are promoting environmental consideration through environmentally friendly products and services such as sterilizers for drinking water.

In addition, we believe that our positive disclosure of water-related risks and opportunities, as well as the proper use of water and the proper implementation of wastewater management as a chemical manufacturing company, contributed to “A List” recognition.

We will continue to contribute to the sustainable development of society by further enhancing and strengthening our ESG initiatives through our business activities based on our corporate philosophy.
