To whom it may concern

Announcement of COVID-19 infection in our group company
(Nissan Engineering, Ltd.)

Nissan Chemical Corporation regrets to announce that on April 5th one employee (hereafter “the employee”) of our group company, Nissan Engineering Ltd. (Head Office: Toyama City, Toyama; President: TAKAKO Yasushi; hereafter “Nissan Engineering”) contracted COVID-19. The employee works at Head Office of Nissan Engineering (hereafter “the relevant site”).

Nissan Engineering, in cooperation with Corporate Planning Department and Toyama Plant of Nissan Chemical Corporation, will continue to take appropriate actions based on government policies and others.

No employee of our Toyama Plant is identified as close contact with the employee by the public health center. Our Toyama Plant, and the other offices and facilities of Nissan Chemical Group in the same area as relevant site are operating as normal with enhanced measures to prevent COVID-19. In addition, as a result of the cooperation with various related parties, this incident has no impact on our business due to such factors as delivery of materials to our customers.

Going forward our group will continue to work to prevent the spread of COVID-19 placing top priority on safety of our employees and business partners. We would like to ask the understanding of all those involved in this endeavor.
