## Temporary Suspension of Nitric Acid Production at Toyama Factory (1)

Production of our nitric acid plant at Toyama Factory (635 Sasakura, Fuchu-machi, Toyama) has been temporarily suspended as an equipment malfunction since April 7, 2025. We deeply apologize for the great inconvenience and concern caused to our business partners and will do our utmost to resume it as soon as possible.

The current situation is as follows,

1. Location of occurrence

Production equipment of nitric acid plant at Toyama Factory

2. Time of occurrence

At around 20:54 on April 7, 2025

3. Schedule to resume production

We are currently inspecting the facility to determine the cause, and it has not been decided yet when production will resume. We will make announcement once the schedule of the restoration is fixed.

4. Impact on business performance

Currently under investigation
